

Telecommunications equipment request form

Use this form to provide the information we need when a telecommunications service provider is attaching or removing equipment on municipal poles. It should be submitted only by the municipality and should not be used for any other type of account request. A new account will be set-up in the name of the municipality for each new attachment. There is a standard charge of \$12.40 plus GST for new accounts. If requested, we will send the bill directly to the telecommunications service provider.

To avoid delays, please provide all requested information and submit the completed form by email attachment to **telecom.equipment@bchydro.com**.

In order to manage your BC Hydro account online, you will need to provide BC Hydro with some contact information (e.g. your name and your business email address, contact telephone number; details that may otherwise be located on a business card) along with the BC Hydro business account number. We consider the information associated with your business account to be non-personal information, regardless of business type (including limited companies, sole proprietorships and corporations).

BC Hydro offers these online facilities in furtherance of its mandate under the Hydro and Power Authority Act, the Clean Energy Act, and the BC Hydro Electric Tariff regulated by the BC Utilities Commission under the Utilities Commission Act. If you have questions about the collection of your personal information as described in this notice, please contact BC Hydro Customer Service at 1 800 BCHYDRO (1 800 224 9376).
