

# Bulk Meter Order Form

This form gathers essential information for ordering BC Hydro revenue metering equipment. It helps us ensure the necessary on-site meters are available when your service is ready for connection. For detailed revenue metering requirements, refer to the [Technical Standards and Guides](#). An example of a completed form can be found [here](#).

## Section 1 – Project Details

1 – Project Information			
Project Name		Design Number	
Address			

## Section 2 – Large Quantity Meter Orders

If your project requires **greater than 10** self-contained meters, please complete the section below.

2 – Self-Contained Metering (For secondary voltage service sizes of 200A or less, and 120/240V up to 320A)							
Building/Service Name	Metering style	Service (Main or Sub)	Voltage (V)	Current (A)	Rating (%)	Number of Jaws	Quantity of Meters

## Section 3 - Applicant Information

By providing my signature below, I acknowledge the following:

1. I confirm that the form is complete, and the information provided is accurate. Any changes to the information may result in additional requirements and delays.
2. I must notify BC Hydro of any changes to the information provided, including project cancellation.
3. The metering equipment provided remains the property of BC Hydro.
4. Any unused metering equipment must be returned to BC Hydro.
