

Net metering program

Commonly used inverter list

LAST UPDATED:
2024-02-15

This is a list of commonly used inverters that have come through the net metering program, and is not intended to be an exhaustive list. If the inverter you'd like to use is not listed below, please submit the inverter datasheet with certification information as part of your net metering application.

Note that grid interactive photovoltaic inverters must be certified under CSA C22.2 No. 107.1, comply with rules in CSA 22.3 No. 9:20, and are equipped with anti-islanding protection per CEC Part I, rule 84-008.

Inverter Make	Inverter Model
ABB	PVI-5000-TL-OUTD-US
