# Energy advisor supported upgrades

Upgrade	Rebate	Requirements
<p><b>For all energy advisor supported upgrades:</b>                      Complete both a pre- and post-upgrade EnerGuide home evaluation.                      After your post-upgrade EnerGuide home evaluation, your energy advisor will submit an Energy Advisor Supported Upgrades application on your behalf. You must still complete and submit your <b>Home Renovation Rebate Application</b>.</p>		
<p><b>Pre- and post-upgrade EnerGuide home evaluation</b>                      This will include the following value-added services:</p> <ul style="list-style-type: none"> <li>• Expert 3rd party consultation</li> <li>• A customized, detailed Energy Efficiency Action Roadmap</li> </ul>	<p>\$150                      Energy Coach Home Evaluation Rebate<sup>6</sup></p>	<ul style="list-style-type: none"> <li>• Complete both the pre- and post-upgrade EnerGuide* home evaluation after September 1, 2016.</li> <li>• Use a program-qualified energy advisor. Find your program-qualified energy advisor <a href="#">here</a>.</li> </ul>
<p><b>Draftproofing</b></p>	<p>\$10 × every 1% of air leakage reduction                      Example:                      \$10 × 15 = \$150</p>	<ul style="list-style-type: none"> <li>• Complete the post-upgrade EnerGuide home evaluation, and submit all required rebate application forms, within 36 months of the initial pre-upgrade EnerGuide evaluation.</li> <li>• Rebate is based on the difference between the pre- and post-upgrade EnerGuide home evaluation air leakage rate.</li> <li>• Applications will only be processed for draftproofing rebates of \$50 or more.</li> <li>• Maximum rebate is \$500.</li> </ul>
<p style="text-align: center;"><b>Bonus Offer – install three or more eligible upgrades (pre- and post-upgrade EnerGuide home evaluation required)</b></p>		
<p><b>Install three or more of the following:</b></p> <ul style="list-style-type: none"> <li>• insulation—attic (flat and cathedral ceiling)</li> <li>• insulation—exterior wall cavities</li> <li>• insulation—exterior sheathing</li> <li>• insulation—basement/crawlspace</li> <li>• insulation—other</li> <li>• Draftproofing</li> <li>• ENERGY STAR or high-efficiency space heating system</li> <li>• FortisBC eligible EnerChoice fireplace</li> <li>• FortisBC eligible ENERGY STAR water heater</li> <li>• Electric Heat Pump Water Heater</li> <li>• ENERGY STAR windows and doors</li> <li>• ENERGY STAR heat recovery ventilator (HRV)</li> </ul>	<p>\$750 Bonus Offer</p>	<ul style="list-style-type: none"> <li>• Complete the post-upgrade EnerGuide home evaluation, and submit all required rebate application forms, within 36 months of the initial pre-upgrade EnerGuide evaluation.</li> <li>• Each insulation upgrade must qualify for a minimum \$150 rebate in one location.</li> <li>• Draftproofing upgrades must qualify for a minimum \$150 rebate.</li> <li>• Must meet bonus offer requirements noted in <b>Home Renovations Rebate Program terms and conditions</b> to be eligible.</li> </ul>

<sup>1</sup>Must be installed by a licensed contractor. <sup>2</sup>For electrically heated homes only. <sup>3</sup>Minimum HSPF of 8.5 and SEER of 15. <sup>4</sup>You can apply for a natural gas fireplace rebate either through the Home Renovation Rebate Program or FortisBC's EnerChoice Fireplace program, but not both. <sup>5</sup>You can apply for natural gas water heating rebates either through the Home Renovation Rebate Program or FortisBC's individual rebate program but not both. <sup>6</sup>The Energy Coach Home Evaluation Rebate is funded via a limited grant through the Province of BC Innovative Clean Energy Fund and will be paid on a first come first served basis according to the date the completed application is received until all available supplemental funds are exhausted.
