

Bulk project windows and doors invoice requirements

Your window and door invoice needs to have all the information identified below in order to meet the program documentation requirements.

Key components typically omitted which can delay rebates of the bulk invoice requirements are 7A, 7B and manufacturer's labels. Ensure windows/doors are identified by total project numbers, preferably by install address, and include model #/Certification—(NRCAN reference #, CSA #) for documentation and audit purposes and include manufacturer's label. **Alternatively, the supplemental project window and door summary spreadsheet can be used.**
